

FIG. 1

FIG. 2 is a schematic diagram of a network of interconnected nodes and links, showing a repeating pattern of large circular nodes (20) and smaller oval nodes (22) connected by lines (28). The diagram illustrates a hexagonal lattice structure where the large nodes are connected by a network of lines, and the smaller nodes are positioned at the intersections of these lines.

FIG. 2

FIG. 3

FIG. 4

FIG. 5 is a cross-sectional view of the device of FIG. 1, taken along line 5-5 of FIG. 1, showing the device in a retracted position. The device includes a handle 22, a plunger 24, and a needle 26. The handle 22 is shown in a retracted position, and the plunger 24 is shown in a retracted position. The needle 26 is shown in a retracted position.
